Location: Amravati, Maharashtra

Professional Summary

Python Developer with hands-on experience in backend development, REST API integration, database management, and web application development using Python and Django. Skilled in Python, SQL, Django REST Framework, MySQL, HTML, CSS, JavaScript, Git, GitHub, Postman, Docker, AWS Basics, and CI/CD concepts. Experience in Machine Learning and AI-based projects using TensorFlow and OpenCV. Strong understanding of OOP, Data Structures, Debugging, Unit Testing, Agile methodology, Scrum practices, and Software Development Lifecycle. Strong problem-solving, communication, and team collaboration abilities.

Technical Skills

- **Programming Languages:** Python, SQL, JavaScript.
- **Backend Technologies:** Django, Django REST Framework, FastAPI, Flask, REST APIs.
- **Frontend Technologies:** HTML5, CSS3, Bootstrap, React.js, JavaScript.
- **Databases:** MySQL, MongoDB, PostgreSQL.
- **Developer Tools:** Git, GitHub, Pycharm, VS Code, Swagger/OpenAPI.
- **Cloud and DevOps:** AWS Basics, Docker Basics.
- **Core Concepts:** OOP, Backend Development, API Integration, CRUD Operations, Authentication, JSON, Unit Testing, Debugging, Data Structures, Query Optimization.
- **Libraries & Tools:** TensorFlow, OpenCV, NumPy, Pandas.
- **Soft Skills:** Team Collaboration, Communication, Problem Solving, Time Management, Leadership Skills.

Experience

Python Trainee Intern

Jan 2026 – Jul 2026

JK Innovative Pvt. Ltd., Amravati

- Developed Python and Django-based web applications with responsive frontend interfaces.
- Improved backend workflow efficiency by optimizing database queries and API handling.
- Worked on REST API integration and database connectivity using MySQL and SQLite.
- Assisted in AI and Machine Learning projects using TensorFlow and OpenCV technologies.
- Collaborated with development team using Git and GitHub version control in Agile environment.
- Performed debugging, testing, and Unit Testing to improve application performance and reliability.
- Worked on deployment concepts, Docker basics, and CI/CD workflow understanding.

Projects

1. Startup Incubation Portal

GitHub Link: <https://github.com/jayharsule5121/MAGIC>

2026

Technologies Used: Python, Django, HTML, CSS, JavaScript, Bootstrap, MySQL

- Developed a startup incubation management portal using Django framework.
- Implemented authentication, startup registration, and project tracking modules.
- Improved workflow management efficiency through secure database integration.
- Designed responsive user interface for smooth user experience across devices.
- Managed CRUD operations and backend functionalities using MySQL database.

2. Connecto

GitHub Link: <https://github.com/jayharsule5121/Conneto>

2026

Technologies Used: Python, Django REST Framework, REST API, JWT, MySQL

- Developed a service booking platform for users and service providers.
- Implemented authentication, role-based access, and secure API workflows.
- Created REST APIs for user, provider, service, and booking management.
- Added booking, approval, rating, and profile management features.
- Used Django ORM and MySQL for efficient database handling.

3. Waste Wise AI

GitHub Liink: <https://github.com/jayharsule5121/WasteWise-AI>

2026

Technologies Used: Python, TensorFlow, OpenCV, Machine Learning

- Developed AI-based smart waste classification system using Machine Learning algorithms.
- Implemented real-time waste detection for plastic, organic, metal, and e-waste categories.
- Used TensorFlow and OpenCV for image processing and prediction tasks.
- Improved waste classification accuracy and automation efficiency by 20 percent.

Certifications

- NPTEL – Database Management Systems (DBMS) – 2026
- Essential SQL Skills for Data Beginners – Analytics Vidhya – 2025
- AI and ML Virtual Internship – Eduskills – 2025

Education

Master of Computer Applications (MCA)

2024 – 2026

PRPCEM, Amravati

Percentage: 73.25

Bachelor of Computer Applications (BCA)

2019 – 2022

VBMV, Amravati

Percentage: 78.50
